ABOUT ME

I'm a hard-working and dedicated front-end developer with a keen eye for detail, and a determination to deliver the highest quality. I love to work in a cooperative environment where I can best apply my abilities to tackle complex and real-life challenges while also having the opportunity to learn new things. Also, I have been participating in different co-curricular activities and social servicing since my college life. At different times I acted in different leading roles which helped me to develop several soft skills.
